

REFERENCE LIST OF PERIODICALS IN ARCHITECTURAL HISTORY AND CONSERVATION (proposal)					
update dd. 10 oktober 2007					
EAHN is working on this list as a support for architectural historians and their institutes to be able to validate their research output. In the absence of ranked list of periodicals in the field of architectural history by institutions such as ISI (Web of Science), it is important that we provide a list that can act as an international reference point for research in architectural history. This list is far from complete or adequate. As it stands now, it is based upon an agreement between architectural department in Flemish universities, who worked on a provisional list. We invite individuals and schools to react to this list, with proposals for extending it or for reconsidering the ranking of specific journals. Please mail to hilde.heynen@asro.kuleuven.be					
A = international refereed, highest impact B = international, review procedure, lower impact C = nationally important, scientific level - some participation of international authors					
ISI: Institute for Scientific Information					
SCIE Science Citation Index (Expanded)					
SSCI Social Sciences Citation Index (SBS: Social and Behavioural Sciences)					
AHCI Arts and Humanities Citation Index					
Avery: database of architectural periodicals, published by Columbia University					
ESF: European Science Foundation					
* = mentioned in a Flemish list for the humanities which is being proposed to ESF
